THE ULTIMATE IN DUAL PANE ENERGY PERFORMANCE

DEL MAR
LUXURY SERIES VINYL WINDOWS

THE ULTIMATE IN DUAL PANE ENERGY PERFORMANCE
Anlin Del Mar luxury series vinyl replacement windows are designed for homeowners who, quite simply, demand the best. Anlin Del Mar’s beauty is complemented with truly unique features to enhance energy efficiency, smooth operation and sound suppression.

Leading edge technology built into Anlin Del Mar windows make them the most energy efficient dual pane windows in the industry.

Energy Saving Technology

Even Sight Lines or Expanded View

The Choice is Yours

Do you prefer the balance and symmetry of even sight lines, where the glass area is the same on both sides of the window? Or perhaps you like an expanded view style that offers the maximum viewable glass area and a slimmer frame. Both styles offer a special beauty. With Anlin Del Mar, you get to choose.

A narrow 2 7/8” frame depth means that, in most homes, Anlin Del Mar windows can replace old aluminum windows and still allow window blinds to fit flush inside the window opening.

Narrow Frame Depth is a Perfect Fit for Many Homes

A superior design, materials and craftsmanship of Anlin Del Mar windows allow Anlin to offer the most inclusive lifetime warranty in the industry. Should your windows ever require warranty repairs, Anlin will make them, free of charge, for as long as you live in the home. And this lifetime commitment extends to some items limited or not covered by other manufacturers, such as screens, exterior vinyl coatings and even freight costs and labor. Anlin’s lifetime warranty coverage is also transferable to one subsequent homeowner should you sell your home. That’s two lifetimes of truly worry-free windows. With Anlin, it’s all covered:

A Superior Warranty

Exclusive Dealer Network

Anlin Del Mar windows are available only through Anlin Del Mar Gold Star Dealers. Each dealer has been selected for excellence in customer service and specially trained to represent Anlin Del Mar series.

Energy Saving Technology

Exceptional Styling and Quality

The features, components and craftsmanship that are designed and built into Anlin Del Mar windows will make you feel great about your home. It’s quality that even increases resale value.

Expanded View
Leading Edge Energy Technology

No other dual pane window compares to Anlin Del Mar’s efficiency.

- Next Generation high performance glazing system delivers unparalleled energy efficiency. Argon gas is included and is flood-filled between the two panes of glass to slow the transfer of heat through the window.

- Anlin Del Mar even sight line windows are made with thicker vinyl and more inner chambers that help reduce the flow of heat through the frame. Comfort-Core™ green foam fills strategic chambers in the window frames to further enhance insulation.

- Sliding windows have three triple-fin weatherstrips for added energy savings and comfort inside your home.

Leading Features

- Inner-Core™ Rigid Thermal Reinforcements are ultra-strong fiberglass thermal inserts that provide superior thermal insulation and strength inside key components of the sash and frame.

Easy to Clean

On single hung windows, which operate vertically, moving sashes tilt in for easy cleaning of the outside glass. This is an especially appreciated feature for second-floor windows.

Heavy-Duty Screen Frame

Anlin’s Aluma-Force™ heavy-duty streamline screen frame is made with thick walls of high-test aluminum. A wide lift rail is integral to the frame, so it will never break off and is easy to grasp to lift the screen. Almost impossible to bend, the screen frame is made to last.

Easy to Open and Close

Sliding windows glide open and shut effortlessly, supported by a pair of carriages with two rollers each. The rollers have precision bearings and stainless steel axles for a lifetime of smooth, easy operation.

Superior Manufacturing Quality

The corners of Anlin Del Mar frames are precision mitered at 45 degrees, welded and cleaned by computer-controlled technology. Then every corner receives the focused attention of a trained craftsman who does a hand touch-up for an especially smooth finish.

Loaded with Features for Convenience

Built-in ventilation latches and anti-lift stops work together to allow your windows to be open a few inches for ventilation without being able to be opened further, and without being able to be lifted out of the frame.

You will find the STC Rating for every Anlin window at anlin.com.

There’s Quiet. And There’s Del Mar Quiet.

Home is where you want the outside clamor to give way to indoor calm. Anlin Del Mar windows come standard with sophisticated sound suppression technology engineered to reduce exterior noise, making your home a quieter, more comfortable place to live.

Vent latches are not available with Del Mar Expanded View Style.
Two things can send energy bills skyward: heat passing from one side of your window to the other; and solar heat sneaking into your home via the greenhouse effect on hot, sunny days. All energy efficient windows try to reduce one or both of these energy-sapping effects. For homeowners looking to replace their windows, there are two essential performance measurements to consider. The first is U-Factor, and the second is Solar Heat Gain Coefficient (SHGC).

U-Factor is the name for the standard measurement of a window’s resistance to heat being transferred through the window. The lower the number, the greater the insulation capability of the window.

Solar Heat Gain Coefficient (SHGC) is the name for the standard measurement of a window’s ability to keep solar heat from passing through the glass and warming your home via the greenhouse effect. The lower the number, the greater the job the window does of rejecting solar heat gain.

All Anlin Infinit-e Plus and QuadraTherm insulated glass systems have been tested to block the transmittance of ultraviolet (UV) light by 95%. You will find the U-Factor, SHGC and UV numbers for every Anlin window at anlin.com.

**Anlin Armor™** – From manufacturing and delivery, to jobsite through installation, Homeowners are guaranteed to receive their new windows in pristine condition.

**INFINIT-E™ Triple-Layer Silver Coating** – Reflects and substantially reduces the amount of solar heat entering the home, from a hot summer sun.

**PLUS™ Easy Clean Coating** – A permanent exterior coating that harnesses the sun’s UV rays to break down dirt, keeping your windows cleaner longer.

**Platinum Elite™, Next Generation Spacer** – Known as Aviation alloy, Platinum Elite’s patented 2-piece, laser welded corrugated design, is the most advanced, thermally efficient, commercial rated warm edge spacer in the industry.

**True Dual Seal** – An engineered thermoplastic moisture vapor barrier (black), fused with a commercial rated 2-part structural silicone (gray), assures lifetime durability.

**Moisture Stop** – Advanced Silica drying agent continuously extracts any moisture vapor from within the unit.

**Argon Gas** – An invisible layer of insulation slows the transfer of heat through the Insulated glass, increasing thermal efficiency up to 15%. (Optional in Infinit-e Plus, Included in QuadraTherm)

**QuadraTherm™** – Multi-layer heat retention coating helps keep more warmth inside your home on cold days and nights. (Optional Upgrade)

LOCK OPTIONS

Both lock types available on Anlin Del Mar windows pass the stringent forced entry test.

- Pull-Tight Cam Lock
  *Available in White, Tan, Adobe, Bronze, Brushed Nickel, and Polished Brass.*
  - Pull the window sashes together for a weather tight seal.

- True Action Lock
  - This optional system automatically locks when the sash is closed. Available in White, Tan, Adobe, Bronze, Brushed Nickel, and Polished Brass.

THE PERFECT COMPANION

For window types that need a frame that is deeper than 2 7/8", Anlin Coronado windows are a perfect companion to match the look of Anlin Del Mar windows.

Bay and bow windows make a home special. They practically bring the outdoors right inside so rooms feel larger and lighter.

Garden windows offer a popular way to brighten a kitchen or bathroom, opening the room to more sunlight and providing a perfect shelf for plants and décor.
Exterior Color Options

Love the look of your home right down to the color of your window frames. With Anlin, you've got a lot of choices!

Colors shown are printed representations of ThermaCoat™ Solar Reflective Colors for comparison purposes only. For actual color, view ThermaCoat™ vinyl samples (provided by dealer) in natural daylight.

Frame Options

Choose a frame style that gives your home the look you love. Our most popular Contemporary frame and our Brickmould frame surround the window in decorative beauty. If "less is more" is your design style, our Block frame is streamlined to fit entirely within the wall opening.

Safety / Tempered Glass

All Anlin replacement windows can be ordered with optional tempered glass. If broken, tempered glass helps prevent injury by disintegrating into hundreds of small, less dangerous pieces.

Decorative Glass Options

- While most windows have clear glass, Anlin Del Mar windows are also available with any of the following decorative glass patterns.

Your window glass can be precision engraved with a variety of V-Groove styles and patterns.

SunShield Extreme™

The ultimate technology for combating extreme solar heat, blue-gray tinted triple silver coating is engineered to reflect the sun where it beats the hottest. Whether it’s the searing sun of the Arizona desert or anywhere west facing windows are exposed to a scorching afternoon sun, SunShield Extreme™ dramatically reduces solar heat and lowers cooling costs.
We encourage you to visit online review and opinion sites, such as YELP and others, to learn why so many homeowners give Anlin a 5-Star rating for our products and service.

All Anlin windows and doors are AAMA and NFRC certified, and ENERGY STAR qualified.

Recognized for Manufacturing Excellence
Since Anlin Windows & Doors was founded in 1990, we’ve continually invested in leading edge product design, technology and manufacturing practices. As a result, we’ve been recognized as a Top 100 U.S. Manufacturer by Window & Door Magazine and have been selected as the Industrial Business of the Year by the U.S. House of Representatives and Small Business of the Year by Congress and the California State Legislature.

5-Star Service
We’ve always believed that how we stand behind our products is every bit as important as how we build them. Should your Anlin windows or patio doors ever need service, Anlin has its own team of highly trained technicians and a fleet of service vehicles to ensure a great experience. From the first phone call to the completed repair, you’ll appreciate Anlin’s commitment to your satisfaction.

“From the way we build your windows and patio doors to the way we stand behind them – we look forward to creating an exceptional experience.”
